IMPORTANT!

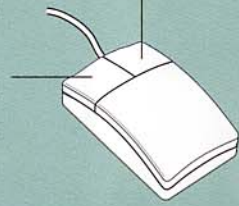
When the enemy is detected on the Enemy Status Indicator, you must fire your weapon. You cannot navigate until the enemy is eliminated.

CDD-3110-301-U3

THE OPTION MENU

Right Mouse Button (Displays Option Menu.)

Activate Hot Spots, Pick Up Items or Shoot Weapon



Save Game	Saves the current game status (only while in Travelink).
Restore Game	Loads a previously saved game.
Adjust Volume	Sets the volume levels for music and sound FX.
Quit Game	Exits the game and lets you save your game status.
Cancel	Returns you to the game.

Note: Use the ESC key to display the Option Menu; use the spacebar to skip movies.

THE POINTER

The Pointer will appear diamond-shaped in a non-interactive area.

The Pointer will appear as an arrow when you can activate hot spots.

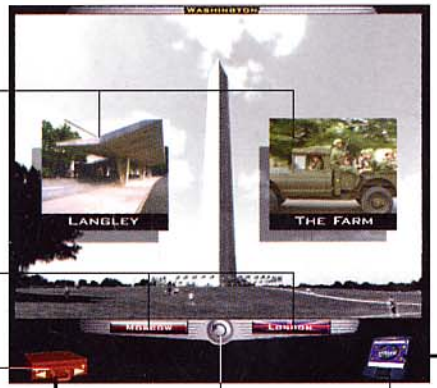
The Pointer will become a hand when you can link to another page in the INTELINK web.

When you can move through an environment, the pointer will indicate the direction in which you can travel.

SPYCRAFT™

THE GREAT GAME

TRAVELINK



Available Locations Within City

Available Cities (Click to travel to selected city.)

Briefcase (Click to access your inventory.)

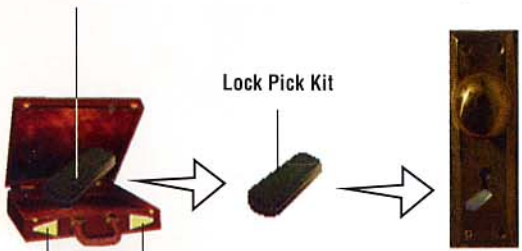
Backup Button (Click to return to previous level.)

Personal Digital Assistant (PDA) (Flashes to indicate message received.)

USING INVENTORY

Click on inventory item to remove it from the briefcase.

Note: You can click on the inventory item when it is outside the briefcase in order to see it close up.



Lock Pick Kit

Scroll Through Inventory

The pointer turns into the selected item when placed over object with which it can be used. Click to activate.

Report Intelligence

IMPORTANT!

Help – Provides an overview of each new interface you encounter in the mission.

OPS MGR – Logs your current mission directive and records all missions completed. Also lets you know what other operatives are doing.

Archive – Allows you to review e-mail, video mail and listen to previously saved voice mail.
